DELUXE NET 'N' CLEAN

RAINBOW POOL PRODUCTS PTY LTD

SPECIFICATIONS

Deluxe Net 'n' Clean

Description:

Deluxe Net 'n' Clean incorporates a Genus III or Genus IV electronic Control System. The Genus control allows for independent timer operation of the Net 'n' Clean infloor system and automatically switches infloor off when spa mode is selected. Heated water is maintained when requested in the swimming pool which lowers heating costs. Pool owner has complete control over Net 'n' Clean system, filtration system and heating options from the in house Genus Touch Pad.

Ordering:

Please specify product numbers when ordering.
