PRESSURE LOSS VERSUS FLOW ACROSS ALL MODELS

Disclaimers Every endeavour has been made to publish the correct details in this leaflet. No responsibility will be taken for errors, omissions or changes in product specifications. All performance data taken at sea level.

FOUR CARTRIDGES IN A COMPACT DESIGN

Clean & Clear Plus cartridge filters contain four polyester cartridges that hold enormous amounts of dirt. Yet are easy to clean. The fibreglass reinforced tank halves are secured with an innovative clamp ring - just loosen the ring and remove the top half for easy cartridge access and rinsing. Filter maintenance doesn't get any easier.

- Continuous internal air bleed prevents air build-up, to keep the filter operating at peak performance.
- Single-piece base and body for strength, stability, and years of dependable service.
- One year limited warranty. See warranty for details.
