**Water Purification by Mother Nature**

The environmentally friendly  
solution for pools and spas

**MONARCH**  
POOL SYSTEMS

AUSTRALIAN OWNED AND OPERATED

# OZOMATIC®

## OZONE GENERATORS FOR POOLS AND SPAS

### Application

Ozone is a welcome addition to conventional water treatment methods. Ozomatic®'s advanced but simple technology was developed from mother nature's own way of purifying our rivers and lakes and the air in which we breathe.

How does Ozomatic® work? – Ozomatic® takes oxygen from the air and converts it into very safe levels of ozone. When ozone is introduced into your pool or spa water, it will remove contaminants and chemical by-products which cause poor water quality and unpleasant odours.

Extensive research into Ozone Generation and effective injection techniques have enabled Monarch Pool Systems to develop a superior ozone system using the highest quality components and latest technology available meaning virtually no maintenance, minimal chemical additions and low running costs.

### Features & Advantages

#### It's gentle to people.

Ozone has a clean fresh scent. It will not irritate eyes, skin or discolour hair. It's particularly suitable for both above and below ground pools and all spas and jacuzzis.

#### Safe for the environment.

Ozone does not contain harsh chemicals. It starts as oxygen and finishes as oxygen.

#### Economical to run.

Ozomatic® Ozone Generators substantially reduce chemical usage and cost only a few cents a day to operate.

#### Ozone is a very powerful oxidiser.

Ozone sanitises spa and pool water effectively and removes bacteria, body oils, urine, deodorants and soaps.

#### Wide range of uses.

Not only is Ozomatic® great for spas and pools but it can be applied in diverse areas such as cooling towers, agriculture, drinking water, therapy pools, aquariums, nurseries and general water treatment applications.

#### The perfect combination...

Install an Ozomatic® Ozone Generation System on your swimming pool together with your Chloromatic® Salt Water Pool System for the most pristine water quality available.

### Specifications

Model	MOG 15 24hr	MOG 15	MOG 60	MOG 120	MOG 480
